March 19, 2012

Dear valued customers,

We sincerely appreciate your continued support and business relationship. We are proud to be a leader in the industrial TFT-LCD market and part of your successful business.

As you are aware, Mitsubishi Electric Corporation ("Mitsubishi Electric") entered into an OEM business relationship with Optrex Corporation ("Optrex") on April 1, 2002, and has been selling TFT-LCD products in North America and Europe through the Optrex sales network since that time. However, the parties' relationship recently changed due to the fact that Optrex became a wholly-owned subsidiary of Kyocera Corporation ("Kyocera") on February 1, 2012, and will begin operating as Kyocera Display Corporation on April 1, 2012. Specifically, as a result of Kyocera's acquisition of Optrex, Mitsubishi Electric and Optrex have agreed to terminate their OEM supply agreements effective as of September 30, 2012 regarding the TFT-LCD products for Industry market. The parties will negotiate any specific customer supply needs beyond September 30, 2012 on a case-by-case basis. Mitsubishi Electric looks forward to working with you to implement the changes discussed above and is committed to maintaining continuity of supply for all customers.

If you have any questions, please feel free to contact our global branches.

Best regards,
