

1st January , 2016

Dear Valued Customer,

NEXT INNOVATION STEP OF JENSON DISPLAY

Thank you for your long term support to our business relationship, we are pleased and proud of announce Jenson Display Group is proceeding to the next phase of development.

We are able to announce that we merge Qingyuan backend process to our corporate site in Chenzhou by the end of January 2016, keeping the process, methods, material and man unchanged(4M). This merging of our existing backend process will enhance our operations and provide a strong and better business development in long run for customers. Meanwhile, our Guangzhou front end process will remain unchanged and we plan to keep our investment schedule.

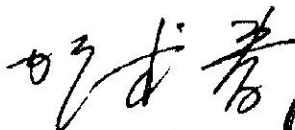

Our ChenZhou, Hunan Province plant, is an integrated & well developed production facility with advance manufacturing equipment and high automated production lines.

Generally, our new development is going to benefit our customers as well as your customers in terms of manufacturing efficiency, continuous improvement of quality assurance and delivery schedule in the future, also in ChenZhou plant, we can achieve below and more:

- manpower supply stability
- production line automation (in-line design)
- advance manufacturing equipment (i.e. Automatic Optical Machines, Electrical Optical Characteristics Measurement equipment, etc.)
- increase production capacity and elevate our production capabilities

We value your business and continuous support to Jenson Display Group. It is our mission to provide quality products and services. We hope to further enhance our business relationship in the future. Please do not hesitate to contact our Sales representatives for a discussion and learn more of our plan. Thank you for your attention.

Yours sincerely,

Michael He
